

Ben Cattoor

Summary

I have experience in a lot of different subjects relating to IT. I completed a lot of projects that required teamwork, sometimes with people that I did not know beforehand, that were all brought to a good end, so I believe I can work really well in a team. I am also really interested in math and new and upcoming technologies.

Education

Math(8h) and Sciences ASO , Garenmarkt 8000 Brugge

I learned a lot of math and science above the average high school level and even learned some basic university math.

Bachelor Computer Science, Ugent, Gent

I quit this course after 1 year. I struggled a lot in this first year, but I had gained a lot of valuable experience.

Bachelor With Major in Software Engineering, Howest, Brugge

This is the course I am currently doing. I am currently in my third year.

This course provides me with a lots of different programming experiences and Other IT related subject.
